Send those wrinkles packing for the Holidays!!

One of the latest trends in plastic surgery has been the development of non-invasive procedures. At Youthful Images, Dr. Felice has been at the forefront in providing alternatives to surgery having performed over 20,000 non-surgical procedures. Before making the headline news, we have provided micropeels, microdermabrasion, photorejuvenation, fillers for wrinkles, Botox and our latest addition, DermaWave no-needle mesotherapy. The goal of all treatments has been to offer safe and effective treatments to reverse the signs of aging.

We are often asked, "What can I do to look better for an upcoming event, and not lose time from my daily activities?" Certainly, at this time of year, the goal is to look refreshed for the holidays.

As all individuals vary in their needs, we have developed "Rejuvenation Packages" that can turn the clock back in a single session with minimal downtime. An example would be that of an individual who desires elimination of frown lines in the forehead and area between the eyebrows, and improvement of the lines in the lips and folds around the mouth. This individual would be an excellent candidate for Botox and a filler such as Radiesse or Restylane. Within a few days, this same individual is enjoying the compliments of a refreshed and younger appearance.

This special holiday edition gift certificates and savings for our combination non-surgical options. Don't miss out!! Take advantage of these savings now by calling Youthful Images.
