**TNS Illuminating Eye Cream®**

The goal now is to fix loose, crepey skin and support the fat and muscles that are starting to sag. "A cream with growth factors, like the patented TNS formula, decreases fine lines and wrinkles while also firming the tissue," says Montclair, N.J., dermatologist Jeanine B. Downie. To temporarily make bags less noticeable, try an eye roller. The massaging action helps disperse fluid.

**QUICK FIX** Olay Regenerist Anti-Aging eye roller, \$20; at Walgreens.

**DAILY Rx** Skin Medica TNS Illuminating eye cream, \$85; skinmedica.com for doctors.
